THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-42, *dated* 8*th December* 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

C. A. BARRON,

Chief Secretary to Government, Punjab.

Notices of the Patent Office.

PUBLIC ROOM, OPEN 11 A.M. TO 4 P.M.; SATURDAYS, 11 A.M. TO 1 P.M.

1.—*All communications* relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) should be addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed.

2.—*Directions* for the guidance of inventors and others are given in the Indian Patents and Designs Act, 1911 (price, 10 annas), and in the Indian Patents and Designs Rules, 1912 (price, 2 annas). These should be consulted before an application is made to the Controller.

Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British possessions. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.

I.—This Institution has been established at the desire, and with the assistance, of the Punjab Government, in order to provide a Public Library for the use of all classes in the Province.

II.—The objects of the Institution are—

(a) to provide a Public Library for the use of all classes of the community which shall contain official publications as well as general literature, both Oriental and of other kinds;

(b) to provide a Reading-Room which shall be open to the public free of charge.

III.—The Institution seeks to contribute to the intellectual advancement of the country—

(a) by lending a helping hand to those who have the aspirations of a student or a scholar, by placing within their reach those literary and scientific treasures which they might find it difficult or impossible to acquire for themselves;

(b) by rendering accessible in one place valuable information that may be required for local historical research, or for any other enquiry that depends upon records rather than experience;

(c) by assisting those who are engaged in any effort for the good of the people by enabling them to consult the stories of similar efforts in countries more advanced than India, from whose experience India may well lay to heart valuable lessons; and

(d) by providing, on an adequate scale, for the general public means, both of discursive reading in various fields of literature and of more profound studies in specialities.

IV.—The Committee of the Library earnestly appeal to all interested in the moral and intellectual development of this country for help and assistance to enable the institution to possess not only what is best in Western Literature, but also "a thoroughly representative collection of Eastern works," and to this view they appeal to Indian noblemen and gentlemen and indeed to all, of whatever race or creed, who can appreciate what oriental thought has effected in the past, for help in securing for the Public Library those valuable collections of manuscripts and oriental books (in the possession of Chiefs and gentlemen) whose usefulness is considerably curtailed by their inaccessibility to the public.

V.—A donation of Rs. 50 entitles the donor to the privileges of a life member, thereby enabling him not only to obtain a private benefit, but also to contribute towards an excellent public object.

VI.—The Library, being open to the whole Province, deserves support from all parts of the Punjab, and the Committee ask Municipal Committees, District Boards and Indian States to make monthly grants of money that the institution may be maintained in a state of thorough efficiency.

VII.—Copies of the Alphabetical and Classified Catalogues of works of all kinds in the Library are procurable on application to the Librarian.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2881-42, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer

C. A. BARRON,

Chief Secretary to Government, Punjab.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-42, *dated* 8*th December* 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Office.

Chief Secretary to Government, Punjab.

III.—It appears by the Judge's Certificate, dated the day of 19 , that persons have been settled on the list of contributories of the said Company, in respect of the total number of shares.

IV.—For the purpose of satisfying the several debts and liabilities of the said Company and of paying the costs, charges, and expenses of, and incidental to, the winding-up the affairs thereof, I believe the sum of Rs. will be required, in addition to the amount of the assets of the said Company mentioned in the said Schedule A, and the said sum of Rs.

V.—In order to provide the said sum of Rs. , it is necessary to make a call upon the several persons who have been settled on the list of contributories as before mentioned, and having regard to the probability that some of such contributories will partly

or wholly fail to pay the amount of such call, I believe that, for the purpose of realizing the amount required as before mentioned, it is necessary that a call of Rs. per share should be made.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-42, *dated 8th December* 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Office.

C. A. BARRON,

Chief Secretary to Government, Punjab.

Notices of the Patent Office.

PUBLIC ROOM, OPEN 11 A.M. TO 4 P.M.; SATURDAYS, 11 A.M. TO 1 P.M.

1.—*All communications* relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) should be addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed.

2.—*Directions* for the guidance of inventors and others are given in the Indian Patents and Designs Act, 1911 (price, 10 annas), and in the Indian Patents and Designs Rules, 1912 (price, 2 annas). These should be consulted before an application is made to the Controller.

3.—*Advice.* The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs, or on their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular agent; or (4) to assist in the disposal of inventions. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British possessions. The International Convention for the Protection of Industrial Property does not include India. Applications for patents in countries other than India should be made to the patent offices in the countries concerned.

When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.

5.—*Trade and property marks* are not registered and *medicines* are not patented under the Indian Patents and Designs Act. There is no provision of Law in British India for their registration.

I.—The Senate approved the Syndicate's recommendation—

(1) that the degrees specified in Appendix I of the Syndicate Proceedings, dated the 22nd October, 1915, be conferred upon the candidates named therein, who are duly certified to have passed the examinations and fulfilled the other conditions necessary for the several degrees referred to in accordance with the Rules and Regulations now in force, and with the provisions of section 16 of the Universities Act, 1914 (*vide* Appendix I).

II.—Read the second proposal of the Syndicate, *viz.*,—

(2) that the list of Examiners appointed by the Syndicate for the Arts, Oriental and Science Faculty Examinations of 1916, be approved (*vide* paragraph 3 of the Syndicate Proceedings, dated the 4th June, 1915, and paragraph 19 of the Syndicate Proceedings, dated the 17th September, 1915.)

Mr. Durga Das enquired whether Examiners who set papers that were not in accordance with the Regulations or courses fixed were re-appointed. He was informed that if any such case occurred, it was carefully considered by the Board concerned, and also by the Syndicate. Instances were quoted of Examiners not being re-appointed on account of insufficient care in setting papers.

The list of Examiners was then approved (*vide* Appendix II.)

III.—The following proposals were approved without discussion —

(3) that the recommendations of the Syndicate relating to the re-appointment of Law Lecturers, be approved (*vide* paragraph 20 of the Syndicate Proceedings, dated the 17th September 1915).

(4) that the recommendations of the Syndicate relating to the payment of Rs. 509-7-5 to the Sports Tournament Fund, in order to remove the deficit, be approved (*vide* paragraph 9 of the Syndicate Proceedings, dated the 22nd October, 1915.)

(5) that the recommendations of the Syndicate relating to the courses of reading in Physiology and Hygiene for the Matriculation Examination, be approved (*vide* paragraph 8 of the Syndicate Proceedings, dated the 4th June, 1915), (*vide* Appendix III.)

IV.—Read proposal No. 6.—

(6) that the recommendations of the sub-committee relating to the School Final Examination, North-West Frontier Province, be approved (*vide* paragraph 12 of the Syndicate Proceedings, dated the 20th November, 1914.)

Mr. Sain Das expressed the view that the test for entrance into the University should be conducted by the University. In the case of the Panjab it was proposed that the Matriculation and School Final Examination should be controlled by a Board on which the University was represented, and that the written examination should be conducted by the University office. Mr. Sain Das asked why there should be a different kind of arrangement in the case of the North-West Frontier Province.

The Registrar pointed out that in lieu of Matriculation the University already accepted examinations neither controlled nor conducted by itself. Mr. Richey explained that when the scheme for the North-West Frontier Province School Final was drawn up it was not known what the Panjab proposed to do. He thought it quite possible, if it was desired, for the University to be represented on that Board. As a matter of fact the two affiliated colleges in the province were represented.

The Syndicate's proposal was then put to the vote and carried (*vide* Appendix IV.)

V.—With reference to the next item, proposal No. 7—

(7) that the Regulations for the Joint Matriculation and the School Final Examination, Punjab, be approved (*vide* paragraph 6 of the Syndicate Proceedings, dated the 1st October 1915.)

An objection was raised by Lala Moti Sagar that he had not received some of the papers referred to, and in particular the proceedings of the Arts Faculty dealing with this question. It was stated that these proceedings had been circulated several weeks previously.

As it appeared, however, that several Fellows had not seen these papers, the Vice-Chancellor remarked that he would welcome a motion for postponing consideration of this item. The matter was accordingly postponed.

VI.—The last two proposals were carried without discussion, *viz.*,—

(8) that the recommendations of the Syndicate relating to the amendment proposed in the Regulations for the B. A. Examination to admit to this degree persons who having passed an Honours Examination of the Oriental Faculty have also passed in the subject of English in the Intermediate and B. A. Examinations, be approved (*vide* paragraph 19 of the Syndicate Proceedings, dated the 4th June, 1915) (*vide* Appendix V) ;

(9) that the recommendations of the Syndicate relating to assigning of Fellows to Faculties, be approved (*vide* paragraph 9 of the Syndicate Proceedings, dated the 1st October, 1915) (*vide* Appendix VI).

Courses of reading in Physiology and Hygiene suggested by the Board of Studies for the Matriculation Examination of 1918 were considered (*vide* Appendix). Dr. Caleb criticised Barnett's *The Making of the Body* being included as a text-book, and at his suggestion, it was resolved to substitute Hill's Physiology for Beginners (Longmans) instead of that book. The amended list including Hill's Physiology for Beginners (Longmans) Cathcart's First Book in Physiology and Hygiene (Macmillan). Blackham's Primer of Tropical Hygiene (S. J. Amb. Association) was then adopted.

It was resolved not to include in the University Calendar books suggested by the Board for teachers, as the Board could issue any suggestions for teachers that they wished to.

APPENDIX IV.

Proceedings of the Committee appointed by the Syndicate to report on the proposed School Final Examination in the North-West Frontier Province at a Meeting held in the Senate Hall, Lahore, on Monday, the 16th November 1914, at 6-15 p.m.

PRESENT:

The Hon'ble Mr. J. C. Godley, M.A. C.S.I. (*in the Chair*).

E. Tydeman, Esquire, B.A.

G. A. Wathen, Esquire, M.A.

S. K. Datta, Esquire, B.A., M.B., CH. B.

Fazl-i-Husain, Esquire, M.A.

A. C. Woolner, Esquire, M.A., *Registrar*.

Read a letter No. 564-N. of the 30th June 1914, from the Secretary to the Chief Commissioner of the North-West Frontier Province, relating to the proposed School Final Examination of that Province.

The Committee considered the replies that had been made to the criticisms and doubts expressed by this Committee on previous occasions. The most important point was, in the opinion of the Committee, the question as to the standing of the Inspector of Schools, who would under the proposed scheme be responsible for the award of School Final Certificates. It was noted that the Inspector was to be a European member of the Indian Educational Service, and that the Government of India had been informed that the appointment of such an Inspector was essential to the scheme. With regard to the difficulty of testing some subjects with a single paper, it was noted that it was now proposed to set two papers of two hours each for English, Mathematics, and History and Geography. It was also noted that History and Geography would not be separated so long as the University does not separate them.

With regard to the undesirability of the same school preparing for both the School Final and the Matriculation Examination, it was noted that this could be prevented by the Syndicate declining to recognise for the purposes of Matriculation any High School in the North-West Frontier Province preparing candidates for the School Final. With regard to scholarships it was noted (*a*) that students from the North-West Frontier Province would not be eligible for the Panjab Government scholarships, and (*b*) that University scholarships are awarded on the results of the Matriculation Examination and cannot be awarded on the results of any other examination. With regard to other points previously discussed it was agreed that if this School Final was instituted the provincial authorities should be considered to be entitled to make their own arrangements.

Finally it was resolved to recommend to the Syndicate that a School Final Certificate from the North-West Frontier Province including a pass in a recognised group of Matriculation subjects should be accepted for the purposes of Matriculation, subject to the appointment of a properly qualified Inspector of Schools, and provided that the University continues to be satisfied that competent persons are appointed as examiners and that the standard of the examination is kept up to the Matriculation standard. Mr. Fazl-i-Husain was opposed to any recognition of this School Final Certificate on the general ground that all examinations for admission to the University should be conducted by the University.

Confirmed.

J. C. GODLEY,
Chairman.

A. C. WOOLNER,
Registrar.

APPENDIX V.

"Any candidate who has passed the Honours Examination of the Oriental Faculty in Arabic, Sanskrit or Persian, and who has passed in the subject of the English in the Intermediate Examination of the Arts Faculty under Regulation 12 of the Regulations relating to Diplomas and Literary Titles in Oriental Languages, may be admitted to the Bachelor of Arts Examination in English only, on payment of the usual fee, and if he obtain pass marks in this subject he shall be deemed to have passed the Bachelor of Arts Examination."

NOTE.—This regulation as drafted above is intended to give effect to the intention of the Syndicate and of the Arts Faculty whose recommendation was accepted.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-42, *dated 8th December* 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District ce

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2881-42, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

Chief Secretary to Government, Punjab.

1. The first item on the agenda paper was passed without comment, *viz.*—

That the recommendations of the Syndicate relating to the Nomination Rolls of candidates for appointment as Extra Assistant Commissioners, be approved (*vide* paragraph 3 of the Syndicate Proceedings, dated the 26th November 1915).

2. The second item comprised the proposed regulations for the Joint Matriculation and School Final Examination of the Panjab, *vide* paragraphs 2 and 1 of the Arts Faculty Proceedings, dated the 26th April and 11th May 1915, respectively; paragraph 5 of the Science Faculty Proceedings, dated the 7th April 1915; and paragraph 6 of the Syndicate Proceedings, dated the 1st October 1915.

Rai Sahib Moti Sagar raised the objection that these proposed regulations had not been referred to the Oriental Faculty. The Senate had asked for the opinion of "the Faculties concerned." After some discussion the Vice-Chancellor ruled that technically the Oriental Faculty was concerned with these regulations. Mr. Tydeman then moved: "That as these regulations have to do with Anglo-Vernacular High Schools and as no Vernacular High School preparing candidates in the Oriental Faculty exists we proceed with the discussion." This motion was seconded by Mr. Hemmy and opposed by Mr. Fazl-i-Hussain. On being put to the vote the motion was lost by 9 to 23. The Hon'ble Mr. Shadi Lal then moved that these regulations be referred for opinion to the Oriental Faculty. The motion was seconded by the Hon'ble Mr. Shafi. Mr. Richey and Mr. Das Gupta questioned the desirability of continuing to postpone the matter. On being put to the vote the motion was carried. The Vice-Chancellor then said that apart from the objection that had been raised he understood that a number of Fellows were still desirous of further information. In order that the matter could be proceeded with on the next occasion he would request such Fellows to state in the meantime the nature of the information they desired. Mr. Das Gupta suggested that full particulars should be supplied with regard to School Finals in other Provinces. With regard to school records he wished to know how entries were made in other Provinces; whether such entries were to be monthly or weekly; whether they would be determined by oral or written tests; whether the responsibility for these entries would rest solely with the Headmaster or partly with the Education Department, and what would be the amount of control exercised by the Inspector. As regards school courses, what would be the additional subjects? Would they be optional or compulsory? Would there be an examination in all optional and compulsory subjects? The evil of too many examinations being recognised, how was this scheme intended to mitigate that evil? With reference to a statement in the Government of India letter about the special circumstances of each Province, how had School Finals in other Provinces been differentiated with regard to such circumstances? Have Secondary School courses been extended in other Provinces? Had the power of the University with respect to the recognition of schools been modified in any other Province? It was understood that emphasis was to be laid on physical and manual training: in what way was this to be provided for? Mr. Richey suggested that the information supplied should include the method of conducting practical tests, and the formation of the School Final Board in other Provinces.

3. The third item was passed without discussion, *viz.*—

That the recommendations of the Syndicate relating to the amendment in the Regulations for the Intermediate Examination of the Science Faculty and of the First Professional Examination, providing "that women candidates who had passed the Intermediate Examination in Arts would be able to qualify in one year for admission to the courses of the First Professional Examination," be approved (*vide* paragraphs 9 and 15 (*c*) of the Syndicate Proceedings, dated the 4th June and 5th November 1915, respectively, and paragraph 2 of the Science Faculty Proceedings, dated the 10th May 1915, *vide* Appendix I).

4. Read the fourth proposal—

That the recommendations of the Syndicate relating to the amendment providing that each of the Boards of Studies should be elected by a single Faculty, and in particular the Boards in English, in History and Geography, and in Mathematics by the Arts Faculty; those in Oriental Languages by the Oriental Faculty; and those in Science subjects including Engineering and Drawing by the Science Faculty, be approved (*vide* paragraphs 14 and 15 (*b*) of the Syndicate Proceedings, dated the 21st May and 5th November 1915, respectively).

Mr. Tek Chand expressed the opinion that the Arts Faculty should take part in the election of Boards of Studies in Oriental Languages as Oriental Languages were comprised among the subjects of the Arts Faculty. Mr. Devi Dayal considered it would be an anomaly for the Arts Faculty to elect Boards of Studies in Mathematics as Mathematics was a subject for the B. Sc. Examination. After some further discussion it was resolved that this question be referred to the several Faculties concerned, for the opinion of each Faculty on the existing rule and the proposed amendments.

5. Read proposal 5—

That the recommendations of the Syndicate relating to the amendments, proposed in the Regulations for the Matriculation Examination providing for the abolition of the re-examination of papers and providing "that a candidate who obtains 33 per cent. in the aggregate of compulsory subjects but less than the pass percentage required by not more than five marks in one subject (written) only shall be deemed to have passed the examination," be approved (*vide* paragraphs 7 and 15 (*a*) of the Syndicate Proceedings, dated the 21st May and 5th November 1915, respectively).

Mr. Tydeman proposed to substitute "three marks" for "five marks." This amendment finding no seconder, the Syndicate's proposal was approved (*vide* Appendix II).

6. Read item 6—

That the recommendations of the Syndicate relating to making Mathematics and Science elective subjects in the Intermediate Examination, Arts Faculty, be approved (*vide* paragraphs 7 and 10 (*a*) of the Syndicate Proceedings, dated the 1st October and 26th November 1915, respectively, and paragraph 2 of the Arts Faculty Proceedings, dated the 11th May 1915).

Mr. Das Gupta said he believed that this proposal was based on the idea that Intermediate Mathematics was too difficult. The Board of Studies in Mathematics did not consider that High School Mathematics was sufficient for any Graduate and had proposed to meet the difficulty by making only one mathematical paper compulsory. The Syndicate's proposal was carried by 40 votes to 3 (*vide* Appendix III).

7. The remaining items of business were passed without discussion, *viz.*—

7. That the recommendations of the Syndicate with regard to the percentages to be required for the different classes in the M. A. and M. Sc. Examinations, be approved (*vide* paragraphs 8 and 10 (*b*) of the Syndicate Proceedings, dated the 1st October and 26th November 1915, respectively, and paragraphs 4 and 1 of the Science and Arts Faculty Proceedings, dated the 1?th January and 26th April 1915, respectively) (*vide* Appendix IV).

8. That the recommendations of the Syndicate regarding the nomination of members of the Board of Accounts, 1916, be approved (*vide* paragraph 9 of the Syndicate Proceedings, dated the 5th November 1915).

9. That the reports of the University Auditor on the accounts of the University from February to June 1915, be approved (*vide* paragraphs 5 and 1 of the Syndicate Proceedings, dated the 5th November and 3rd December 1915, respectively (*vide* Appendix V).

APPENDIX V.

FROM

MESSRS. BASANT RAM & SONS,

Auditors of Accounts.

To

THE REGISTRAR,

University of the Punjab,

Lahore.

Dated Lahore, the 11th October 1915.

DEAR SIR,

WE beg to report that we have audited the accounts of the Panjab University for the months of February and March 1915. We have also verified the statements showing the balances of the various accounts and the abstract of the transactions of the current account for the year ending 31st March 1915, with the books and have found the same in accordance therewith. The following accounts were checked by us :—

(1) The Current Account.

(2) The Oriental College Account.

(3) The Law College Account.

(4) The Special Endowed Trusts Account.

(5) The General Endowment Fund Account.

(6) The Unendowed Special Subscription and Donations Account.

(7) The Provident Fund Account.

(II) We have examined the cash books of the various accounts as also the pass books of the Floating Accounts with the Bank of Bengal, Lahore.

(III) The balances at the end of each month have been verified with those shown in the bank pass books, taking into account the amounts of cheques which remained uncashed at the end of each month during the period in question.

(IV) The balances of the different accounts in G. P. Notes held by the Bank of Bengal, Lahore, on behalf of the University have also been verified with the certificate sent by the bank.

(V) The following defects were noticed by us in the course of our audit :—

CURRENT ACCOUNT.

Receipts.

Counterfoil of a receipt between Receipt Nos. 2430 and 2431 and counterfoil of Receipt No. 1171 have been left blank. We are of opinion that all receipt books should be machine numbered.

Noted. This will be done.

Payments	
In the following cases payee's receipts were wanting :—	
(a) 1. Voucher No. 1215 for Rs. 80 and 25.	
2. Voucher No. 1320 for Rs. 16-1.	Second reminder has been sent for these receipts.
3. Voucher No. 1321 for Rs. 18-5.	
4. Voucher No. 1322 for Rs. 3,000.	
5. Voucher No. 1332 for Rs. 20.	
6. Voucher No. 1390 for Rs. 100.	
7. Voucher No. 1395 for Rs. 45-14.	
8. Voucher No. 1402 for Rs 20.	
(b) *Voucher No.* 1334 *for Rs.* 24-3.—In this case an anna receipt stamp should have been affixed.	Written for.
(c) *Voucher No.* 1330 *for Rs.* 61-5.—In this voucher Rs. 5 was paid on account of V.-P. P. But the V.-P. P. receipt is for Rs. 5-11.	Mistake of the Law College Office. This will be adjusted.
(d) *Voucher No.* 1389 *for Rs.* 48-14.—In this voucher Rs 16-6 paid on account of the cost of 52 earthen pots at 5 annas each. By calculation it should be Rs. 16-4 and not Rs. 16-6.	Two annas refunded.
(e) We have not been shown vouchers for certain payments which are said to be of a confidential nature.	
(f) Proper receipts are not obtained for scholarships that are paid monthly.	This will be done.
(g) Vouchers have not been properly numbered as after voucher No 1337 No. 1378 begins.	This is an oversight of the Account Branch in following the serial number.
Imprest.	
In the current cash book the cash imprest in the hands of the Registrar on 31st March 1915 is shown to be Rs. 500, but according to the imprest book the balance in hand on that date is Rs. 481-0-9. Either the imprest in hand should have been recouped or the actual imprest in hand should have been shown.	Yes, on the last day of the financial year this should have been done.
Government grant for Periodicals.	
We understand that Government made a grant of Rs 350 for periodicals for the use of the University Library. This amount has not been accounted for in the books and has been spent direct without any entry having been made in the University Accounts. To have a proper control it is necessary that such sums should pass through University books.	This will be entered in future in the accounts of the University.
In conclusion, we beg to state that the cash books are properly kept, but we are of opinion that greater care and attention should be bestowed on the ledgers.	I fully agree.

Yours faithfully,

BASANT RAM & SONS.

FROM

MESSRS. BASANT RAM & SONS,

Auditors of Account,

TO

THE REGISTRAR,

University of the Panjab,

Lahore.

Dated Lahore, the 30th October 1915.

DEAR SIR,

WE beg to report that we have audited the accounts of the Panjab University for the quarter ending 30th June 1915.

The following accounts were scrutinised : -

(1) The Current Account.

(2) The Oriental College Account.

(3) The Law College Account.

(4) The Special Endowment Trusts Account.

(5) The General Endowment Fund Account.

(6) The Unendowed Special Subscription and Donation Account.

(7) The Provident Fund Account.

We have examined the Cash Books and the Ledgers of the various accounts and also the Bank Pass Books relating thereto. The balances at the end of each month have been verified with those shown in the Bank Pass Book.

The following defects were noticed by us in the course of our audit.

I. Receipts—

Accoun' Branch oversight.

(*a*). Receipt No. 164 has been issued twice.

(*b*). A counterfoil between the above two receipts has been left blank.

New book should not be used till the old one is entirely completed

(*c*). At the end of a Receipt Book a large number of Receipt forms have been left blank and a new Receipt Book has been commenced.

Payments :—

In the following cases payee's Receipts were wanting :—

(d) Voucher No. 196.—Amongst several receipts in support of payments one receipt is for Rs. 13-2-3 instead of Rs. 14-8-6. — Returned for correction.

(e) Voucher No. 363.—The amount paid is Rs. 40-6-0 while the Receipt is for Rs. 86-8-0. — Mistake of the auditor. The amount paid is 86-6 and the receipt is for 86-8. This receipt sent back for correction.

(f) In some cases the Examiners and the Superintendents of different centres where examinations are held while sending their accounts do not submit vouchers for certain payments. We have seen that the total amount sent to each Examiner and Superintendent has been acknowledged except in such cases as have been noted by us above

(g) Voucher No. 196.—A Superintendent of an examination centre in support of his account has sent along with other vouchers two vouchers for Rs. 5 and 3 which do not bear any signature. — See (d) above.

(h) Proper Receipts have not been obtained for the amount of Scholarships paid. — Noted.

(i) We have not been shown vouchers for a number of payments which are said to be of a Confidential nature.

Cash Book.

At the end of April 1915 there was a difference of annas 7 between the Cash Book and the Cashier's memorandum of Receipts which was adjusted in the month of May 1915? — Adjusted in July and not in May.

Again there is a similar difference of annas 7 in the month of June 1915 which we are told has been adjusted in September 1915.	This is not so as the difference was adjusted in July.

Imprest Account.

We beg to repeat the remarks made in our last report regarding the recoupment of the imprest in hand at the end of each month with the view to see that the imprest account tallies with the Cash Book.

II. All the other accounts are in order.

Yours faithfully,

BASANT RAM & SONS.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2881-42, *dated* 8*th December* 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

C. A. BARRON,

Chief Secretary to Government, Punjab.

PUBLIC ROOM, OPEN 11 A.M. TO 4 P.M.; SATURDAYS, 11 A.M. TO 1 P.M.

1.—*All communications* relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) should be addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed.

2.—*Directions* for the guidance of inventors and others are given in the Patent Office Handbook (price one rupee), which contains the Indian Patents and Designs Act, 1911, the Indian Patents and Designs Rules, 1912, the Indian Patents and Designs (Temporary Rules) Act, 1915, the Indian Patents and Designs (Temporary) Rules, 1915 together with current regulations and instructions. APPENDIX A.

Proceedings at a Meeting of the Special Sub-Committee appointed to make suggestions for the utilization of the special grant sanctioned by the Punjab Government, held on Monday, the 20th December 1915, at 6 P. M.

1. The Hon'ble Mr. J. P. Thompson, M.A., I.C.S., *in the Chair.*
2. The Hon'ble Mr. Justice Shadi Lal, Rai Bahadur, M.A., B.C.L.
3. Manohar Lal, Esq., M.A., Bar.-at-Law.
4. Rai Bahadur Kunj Behari Thapar, *Secretary.*

1. It was resolved that the Hon'ble Mr. J. P. Thompson take the Chair.

2. The Sub-Committee agreed with the Committee appointed by Government that no part of the special grant of twenty thousand rupees sanctioned by Government should be spent in making additions to the following sections :—

1. Fiction.
2. Law.
3. Philosophy.
4. Science.
5. Useful Arts.
6. Medicine.
7. Philology.

3. The Sub-Committee carefully considered the recommendations made by the various Sub-Committees appointed by the Government Committee to overhaul the several departments of the Library and decided to suggest that the grant of Rs. 20,000 be assigned as follows :—

		Rs.
I.—1.	Sociology and Political Economy	2,000
II.—1.	Archæology	450
2.	History	1,950
3.	Indian History	1,200
4.	Indian Geography and Travels	150
5.	Geography and Travels	1,500
6.	Fine Arts	1,050
III.—(a) 1.	Cyclopædias	1,500
	(b) *Oriental.*	
1.	Arabic	2,000
2.	Persian	800
3.	Sanskrit	2,000
	(c) *Vernacular Languages.*	
1.	Urdu	800

	(b) *Religion.*

3.	Hinduism and the Modern Reformed Sects ...	300
4.	Comparative Religions	200
5.	All the other sub-sections of Religion	200
	Total ...	20,000

4. The Sub-Committee decided to recommend that the grant for each year should be spent proportionately on each department during the year. Calculated on that basis the amount available during the current year would be roughly as follows :—

		Rs.
Group I	... ...	400
Group II	... ...	1,260
Group III	... ...	1,700
Group IV	... ...	640
	Total ...	4,000

5. It was further decided that after the allotments recommended by the Sub-Committee are approved by the Committee, the special Sub-Committees which overhauled the various departments of the Library and drew up lists of proposed additions should be asked to meet and draw up fresh lists of books with special reference to the amount available for expenditure under each head.

6. As regards the disbursement of the additional grant of one hundred rupees sanctioned by Government the Sub-Committee noted that the Government Committee had recommended the enhancement of the monthly grant for two objects; *viz.*, the improvement of the prospects of the staff and the establishment of a Provident Fund. The Sub-Committee took into consideration the qualifications of the various members of the staff and the work they had to do and decided to recommend that the Librarian's salary should be a graded one from Rs. 100—10—150. Lala Labhu Ram is at present drawing Rs. 100 per mensem and should be given his first increment with effect from 1st January 1916, and the next increment from 1st April 1917. The salary paid to the present incumbent of the office of Assistant in the English Department, *viz.*, Rs. 50 is, in the opinion of the Sub-Committee, more than sufficient for a man of his qualifications and the work he has to do. The Sub-Committee think it will be necessary to revise the pay of this post when it is decided to employ a person of higher qualifications who can undertake to do a part of the work at present done by the Librarian and who can act for that officer whenever necessary.

As regards the two Assistants in the Vernacular Department who are now drawing Rs. 30 per mensem the Sub-Committee are of opinion that they are inadequately paid and that their salaries should be raised to Rs. 40 by annual increments of rupees two, the first increment to take effect from 1st January 1916 and the next from 1st April 1917. The Sub-Committee decided further to recommend that the salaries of the chaprasies be raised to Rs. 10 per mensem and that they be allowed to participate in the benefits of the Provident Fund when it is started.

7. The Sub-Committee decided to recommend that a Provident Fund be started on the understanding that the amount to be contributed thereto by the Library each year would depend on the balance available of the increased monthly grant of Rs. 100. The Sub-Committee were of opinion that the addition of Rs. 100 to the monthly grant sanctioned by the Government should be regarded as set apart for the benefit of the staff and they thought that on that understanding there would be for the first three years at any rate more than enough to maintain the Fund on the 10 per cent. basis. They decided to recommend that the balance each year for the first three years should be funded so that the 10 per cent. basis could be maintained for as long as possible, but they thought that the staff should clearly understand that so far as could be foreseen at present there was no prospect of the Library Committee being able to continue the Provident Fund on this basis when they approached their maximum salaries. The Committee, they felt, could not guarantee the continuance of any contribution at all once the maximum salaries were reached.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-42, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

C. A. BARRON,
Chief Secretary to Government, Punjab.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2881-42, *dated* 8th *December* 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

C. A. BARRON,

Chief Secretary to Government, Punjab.

Notices of the Patent Office.

PUBLIC ROOM, OPEN 11 A.M. TO 4 P.M.; SATURDAYS, 11 A.M. TO 1 P.M.

1.—*All communications* relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) should be addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed.

2.—*Directions* for the guidance of inventors and others are given in the Patent Office Handbook (price one rupee), which contains the Indian Patents and Designs Act, 1911, the Indian Patents and Designs Rules, 1912, the Indian Patents and Designs (Temporary Rules) Act, 1915, the Indian Patents and Designs (Temporary) Rules, 1915 together with current regulations and instructions. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-42, *dated* 8*th December* 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

C. A. BARRON,

Chief Secretary to Government, Punjab.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-42, *dated 8th December* 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

C. A. BARRON,

Chief Secretary to Government, Punjab.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2881-42, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

C. A. BARRON,

Chief Secretary to Government, Punjab.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2881-42, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

C. A. BARRON,

Chief Secretary to Government, Punjab.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-42, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

C. A. BARRON,

Chief Secretary to Government, Punjab.

I.—This Institution has been established at the desire, and with the assistance, of the Punjab Government, in order to provide a Public Library for the use of all classes in the Province.

II.—The objects of the Institution are—

(a) to provide a Public Library for the use of all classes of the community which shall contain official publications as well as general literature, both Oriental and of other kinds;

(b) to provide a Reading Room which shall be open to the public free of charge.

III.—The Institution seeks to contribute to the intellectual advancement of the country—

(a) by lending a helping hand to those who have the aspirations of a student or a scholar, by placing within their reach those literary and scientific treasures which they might find it difficult or impossible to acquire for themselves;

(b) by rendering accessible in one place valuable information that may be required for local historical research, or for any other enquiry that depends upon records rather than experience;

(c) by assisting those who are engaged in any effort for the good of the people by enabling them to consult the stories of similar efforts in countries more advanced than India, from whose experience India may well lay to heart valuable lessons; and

(d) by providing, on an adequate scale, for the general public means, both of discursive reading in various fields of literature and of more profound studies in specialities.

IV.—The Committee of the Library earnestly appeal to all interested in the moral and intellectual development of this country for help and assistance to enable the institution to possess not only what is best in Western Literature, but also " a thoroughly representative collection of Eastern works," and to this view they appeal to Indian noblemen and gentlemen and indeed to all, of whatever race or creed, who can appreciate what oriental thought has effected in the past, for help in securing for the Public Library those valuable collections of manuscripts and oriental books (in the possession of Chiefs and gentlemen) whose usefulness is considerably curtailed by their inaccessibility to the public.

V.—A donation of Rs. 50 entitles the donor to the privileges of a life member, thereby enabling him not only to obtain a private benefit, but also to contribute towards an excellent public object.

VI.—The Library, being open to the whole Province, deserves support from all parts of the Punjab, and the Committee ask Municipal Committees, District Boards and Indian States to make monthly grants of money that the institution may be maintained in a state of thorough efficiency.

VII.—Copies of the Alphabetical and Classified Catalogues of works of all kinds in the Library are procurable on application to the Librarian.

VIII.—The Rules are given below—

I.—CONSTITUTION AND COMMITTEE.

1. The Committee shall consist of not less than 14 members, including the President and Secretary.

2. The Deputy Commissioner of Lahore, the Director of Public Instruction, Punjab, and the Director of Agriculture and Industries, Punjab, shall be *ex-officio* members.

3. The Municipality of Lahore, the Punjab University, the Bishop of Lahore, and the Committee of the Lahore Gymkhana (late Lahore and Mian Mir Institute) shall each nominate a member. The members so appointed may be changed from time to time by the authorities nominating them.

4. The life members shall annually elect two members to be on the Committee for one year.

5. The remaining members will be nominated by Government, who will also appoint the President.

6. The Committee shall appoint its own Secretary.

7. Standing Sub-Committees shall be appointed by the Committee to carry on the management of the different departments of the Library.

8. The Secretary shall be a member of every Sub-Committee.

9. A meeting of the Committee shall be held on the first Monday in every month. Three members shall form a quorum.

10. A special meeting of the Committee may be called by the President or a Sub-Committee at a week's notice.

11. A general meeting of the life members and Committee shall be held once a year in the month of April, and at the meeting the two annual members to represent the life members shall be elected. Absent life members may vote at the election by proxy.

12. The current business of the Committee to be brought up at each monthly meeting shall include the examination of the Accounts, of the Suggestion books, of orders to Booksellers, of breaches of the Rules, etc.

13. The funds shall be kept in the name of the Punjab Public Library by the Bank of Bengal or as the Committee may from time to time direct.

14. All cheques shall be signed by the Secretary and a member of the Committee appointed by it for the purpose.

15. Expenditure on fixed charges, for which sanction already exists, and on contingencies up to a limit of Rs. 50 a month, may be incurred on the joint authority of the persons empowered to sign cheques. All other expenditure requires the previous sanction of the Committee.

16. A donation of money of Rs. 50 or upwards, or of books not already in the Library accepted by the Committee and valued by it as worth not less than Rs. 50, shall entitle the donor to the privileges of a life member.

17. Any donor of books may make it a condition of the donation that any of the books he gives shall not be lent out except to himself.

18. Life members shall be exempt from payment of deposits, subscriptions and other fees required by the rules.

19. The Punjab Government shall, in consideration of its interest in the "Punjab Public Library," have the reversionary right in the books, furniture and other property of the Library in the event of its dissolution, and sh ll further have power to dispose of the same in such manner as to it may seem fit, and as shall be in accordance with law.

20. The Library may be dissolved with the consent of the Punjab Government, but not otherwise.

II.—The Reading Room.

1. The Reading Room is open to the public free of charge.

2. Books may not be removed from the shelves by any one except the Librarian.

3. Catalogues and application forms are on the table. The Librarian will get any book for which a form is handed to him; and books must be returned to him before leaving.

4. The Committee will exclude from the building persons who disregard any rules or who damage the property of the Library.

5. Closed Days.—The King-Emperor's Birthday, also from 1st to 7th October, and from 1st to 7th April inclusive.

6. Daily Hours.—In the winter 8 A.M. to noon and 3 to 8 P.M. and in the hot weather 7 to 11 A.M. and 4 to 8 P.M., and on Sundays 2 to 5 P.M. in the winter and 5 to 7 P.M. in the hot weather.

III.—Rules for Lending out Books.

1. An applicant must deposit Rs. 10 with the Secretary. The deposit will be liable to forfeit for injury or loss of a book, or for breach of any of the rules. Books lost must be replaced or paid for.

2. An annual subscription of Rs. 5 must be paid in advance.

3. Not more than ten volumes may be kept out on one subscription.

4. Residents at Lahore or Mian Mir shall return within two months every book so taken out. To residents at other places ten days longer will be allowed. But all books lent out must be returned by the 30th September and 31st March each year.

5. The cost of forwarding books will be recovered by sending them by Value-Payable Post. Any charges due under Rules 1 and 2 may be added.

6. Books may not be transferred from one person to another.

7. The Committee will reserve from issue, under these rules, new or valuable books at its discretion, or may recall after a fortnight any book which is in special request.

8. Forms of application for books can be supplied, and their use is requested, but is not obligatory.

9. Deposits under rule 1 (if free of claims) will be returned on request to persons who have no books of the Library in their possession.

10. A reminder will be sent, as soon as a book is overdue, to be repeated a week after.

11. If no notice is taken of the two reminders, an intimation should be sent to the borrower that he will be liable to a fine of one anna a day per overdue volume from the date of the second reminder, unless the books are returned or permission for renewal is obtained.

12. No books shall be issued to a defaulting borrower, until he has returned the books already with him, and paid the fine due from him.

13. The name of the defaulting borrower shall be brought to the notice of the Committee at their next meeting, if the intimation mentioned in (11) has been disregarded, and the Committee may then impose a fine of one anna per day as provided in (11).

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-42, *dated 8th December* 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-42, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

C. A. BARRON,

Chief Secretary to Government, Punjab.

Miscellaneous Notices and Advertisements.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-42, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

C. A. BARRON,

Chief Secretary to Government, Punjab.

When all had been presented, the Vice-Chancellor delivered the following address :—

The Senate of the University of the Panjab meets to-day for the thirty-seventh time in Annual Convocation.

As an organization its history covers one-third of a century. Upon much of that history we are able to look with satisfaction. It is a record of continuous growth and gradual improvement. The number of students connected with affiliated Colleges in 1885, or the third year after the incorporation of the University, was 538, while in 1915 it is 5,544. The rate of growth has been especially rapid in the number and enrolment of the Arts Colleges. As illustrating this, we note that in 1885 these were two in number as against 18 at the present time. There were then 225 Undergraduate students, while now there are 4,821. In the former year 234 passed the Matriculation test and in the latter 3,068. The total numerical output of these thirty-three years may be thus summarized, leaving out of consideration that large number who were unsuccessful in obtaining the degrees which they sought.

Whole number of passes—M. Sc., 46; M. A., 432; B. Sc., 142; B. A., 3,642; the Pleadership Examination 966; LL. B., 690; L. M. S., 397; M. B., B. S., 148; B. O. L., 68; M. O. L., 19; Oriental Titles, 1,252; or a total of 7,802, who have received diplomas or degrees in Medicine, Law, Science, Arts or Oriental Studies.

Statistics such as these have a definite interest and value, especially for those who think it worth while to study the tendencies of our times; and I take it that you, gentlemen of the Senate, are by no means behind others in your desire to measure present forces, with a view to prepare yourselves and those whom you represent to deal with their inevitable future development.

In previous years reference has been made to the rapidly increasing number of youths coming up to the University from the schools scattered over the vast territory lying between the Jamna and the frontier of Afghanistan and containing a population of some thirty millions.

Regarded from the point of view of its relation to this large population, our total of 5,544 may seem, by no means, large, but viewed in relation to existing openings for the ordinary Graduate in Arts, Law and Oriental Studies, this number is actually startling.

It is all very well for us to descant upon the desirability of directing the minds of these young men to industrial pursuits, but conditions, as they exist up to the present moment, are such as to cause it to seem little short of mockery for us to advise the rank and file of graduates, such as I see before me to-day, to devote themselves to the mechanical arts, the tilling of the soil or the development of commerce. Training they have not had, land they do not possess, and of capital the majority of them have little.

For certain recognised forms of useful activity our students are receiving admirable training. They are being qualified for various important posts in the several Departments of Government service, for the work of teaching, and some of them for the professions of Medicine and Law. In each of these walks of life there is a constant demand for a certain number of well-equipped men; but the supply of men who have reached the point where they not unnaturally expect to find a field for their energies in one of the learned professions or in the Public service, seriously threatens to exceed the demand. The legal profession is said to be overcrowded, and the number of persons annually admitted in this Province has been definitely restricted. Medicine calls for a score or two of recruits each year and the higher posts in Government service are speedily filled by the entrance of an exceedingly small proportion of the total out-put of the Colleges.

The father sends his son to the schools and to the College throughout a period of years, and we send him forth by and by with the stamp of the University upon him. He is what we have made him; but there is apparently, in many instances, no place for him in any of the spheres for which he feels himself to be fitted and into which he had hoped to enter. I personally know not a few men, whose plight, after having honourably completed the courses prescribed by the University, was such as to call forth one's deepest sympathy. An education they were determined to acquire, and we probably all unite in commendation of such ambition. The course followed by them was the only one that seemed to them likely to lead to places of competency and social influence, and yet, at an early day, they have had forced upon them the knowledge that they and

such as they are not in demand. More than one graduate, after a fruitless search for a position where his particular type of ability and training could be turned to account, has been heard to say, 'There seems to be no place for me anywhere,' and has asked us to suggest to him what he is to do. Enquiries such as this, and the knowledge that these questions represent the state of perplexity of a multitude, lead one to wonder if, after all, we are doing all that should be done and to question whether our system may not be suffering from defects that are by no means all upon the surface.

It is surely unnecessary to affirm, in this presence, that such an enquiry does not spring from any latent suspicion that education in India is in danger of becoming too widespread. On the contrary, most of us will cordially agree, I am sure, that no such peril threatens us. The country needs more schools and more Colleges, and it is desired, upon all hands, that these should be improved in quality at a rate proportionate to their increase in numbers.

But may I be permitted to say that in my judgment, the youth of this Province are suffering a serious disadvantage by being, if I may so express it, forced into one or two particular moulds, and having been thus shaped, are sent forth into the world ill-prepared for efficient service outside the scope of two or three professions which, as has been intimated, can only furnish a sphere for the activities of the few.

It is my conviction based upon some experience, and a fairly earnest attempt to measure sympathetically the requirements and the possibilities of Indian youth, that the time has come when those charged with the responsibility of providing for the training of the young, must address themselves to the task of bringing education, and the appliances and processes pertaining thereto, into a more direct relation to the ordinary activities and needs of the daily life of the common world about us than has hitherto been realized. We are by no means prepared to join with the satirist in describing a University, even one in which mere mental discipline and the gathering of facts are the chief aim, as a place where "One term's wave of students chased another like the waves of the sea; only the old Professors remained steadfast like the pyramids of Egypt; but in these University pyramids no wisdom lay hidden." And yet, is there not danger of our forgetting that the University of to-day must, if it is to fulfil its part, take not only all knowledge, but all human life, as well, for its province?

One of the greatest modern developments in industrial processes has, I believe, been in the utilization of waste-products. Such products do not exist in an ideally organized industry. Neither should an ideal University produce what cannot be utilized. If the great majority of graduates—those who are not destined to fill places in the tasks of higher teaching or research—are not ready to take a reasonable and useful place in the community, and are driven to merely parasitic occupations, such a condition will be a menace to the public welfare.

As a country progresses, people alter their ways. Educational institutions, if they are efficiently and powerfully to lead mankind must sometimes alter theirs. They must be watchful against the tendency to detachment from the human life that moves, in all its complex currents, just without their walls. The maintenance of such an attitude is not an easy thing. A system has been adopted, has suited the conditions and been pleasing to the people of the time when it was introduced. As the years pass it gathers about itself all the charms of antiquity and becomes, in the view of some, a thing almost sacred. We shrink from all suggestion of change as from a profanation; until, at last, the system itself is found to be standing hopelessly apart from the human needs it was intended to sub-serve. Change is the law of progress, and what fitted the conditions of life a few decades ago, can surely not be reckoned upon as necessarily in the most entire harmony with them to-day. In the domain of education, therefore, we feel justified in asking, from time to time, whether our system is in the fullest conformity with the circumstances and requirements of the period concerned. Let it be clearly understood that there is no suggestion here of any plea for the lowering of standards of scholarship. The highest ideals as to what a University may do for a people cannot but include provision for the cultivation of the profoundest scholarship, unrestricted facilities for research, and the broadest general culture of which the choice spirits of a nation are capable.

The suggestion is only this: that there is a very real danger that in the strenuous endeavour to accomplish all this, that which is essential to the preservation of the balance of life between thought and action may be left undone. Wherever this occurs much of intellectual talent that is born to industry, to the development of the resources of the country will inevitably be diverted from those tasks and consigned to comparatively fruitless labour, for which there is perhaps little, if any, aptitude, natural or acquired, and the sum of which, when they come to be estimated, is supremely unimportant in comparison with that which might, under wiser guidance, have been accomplished. Viewed thus, the problem that presses for consideration is seen to be one of the greatest importance, and also one for which it is exceedingly difficult to discover any full and practical solution. It is not claimed that such solution has been found; the best perhaps that can be hoped for is that the reality of the need for some new adjustment be recognised, and that a serious effort be made to meet that demand.

I hold no brief for what is known as the School Final Examination, nor is this the time for a discussion of its provisions. It may, however, be fairly claimed for it that it is an attempt to deal with a situation which has, for years, been forcing its way toward recognition by all who are intelligently interested in education. It is not a scheme to bring about any diminution of the normal out-put of graduates or to restrict the spread of education. It appears to me to be rather the beginning and a not unimportant one, of a process designed to give a wider scope of choice to the student and to make it possible for him to gain a liberal education, without his being confined necessarily to Courses of Study which, when completed, leave him in many cases, at least, as poorly equipped for any of the places that are calling for men of action as he was in the outset. At the risk of being stigmatized as hopelessly heretical in daring to suggest that any possible way could fulfil the demand of the time better than the old way, may I crave your patience for the moment or two necessary to make clear, chiefly by way of illustration, the general lines of change in method to the consideration of which I wish that the University might address itself?

1. First of all, let it be reiterated that we must keep in touch with the time. If we have become detached from present day interests and have come to regard a University education as a thing apart from such concerns, it is high time that the fact be faced. If it be, in general, true that there is an over-production of one type of University trained man and under-production of another, the responsibility for it rests with us rather than with any others, and the remedy, if such is to be found, must be discovered and applied by us.

2. There is a question connected with prescribed texts that bears a very intimate relation to the whole matter. Books are indispensable; there cannot be too many of them, so long as they are good books; but they can be misused. Teachers are familiar with the exceeding difficulty involved in preventing the wrong use of texts. The tendency is to regard the book as a thing to be memorized, not as a guide and stimulus to thought. The student is, by no means, wholly at fault, since observation has taught him that the former process ordinarily counts for most with the examiner, and that the latter may be ignored without material risk to the chances of passing in one of the lower divisions. Prescribed Courses of Reading there must be, and wisely used they never hinder; but that wise use is only realized when they are kept in the place of servants and helpers. The injury wrought sometimes by the misuse of texts is so great that one could almost wish that they might be prohibited rather than prescribed, except for purposes of reference and thoughtful reading under efficient guidance. The evil complained of is prevalent, in some degree, everywhere; but in conditions where the learner is called upon to use a language other than his mother tongue, as a medium, the danger is doubly great. Anything in the form of a remedy must be applied at a very early point in school life, and consistently maintained at every stage. Teachers must be found who can, so to speak, take their places between the student and the book, use the latter as a means of suggesting thought concerning the things of which it treats, of correcting false notions and providing material for mental processes.

3. The method in vogue of testing the fitness of a student for advancement to the higher classes, or for a University degree might, with great advantage, be subjected to scrutiny, with a view to remove some of its obvious defects. It is hardly probable that any here are cherishing a conviction that in our Regulations we find expressed the final word upon this subject. The majority of us are likely to be in the fullest agreement as to some of the evils and losses apparently inseparable from the application of our present rules. And yet the obstacles in the way of change have seemed so great, that we have hesitated to undertake even so much as a thorough examination of conditions, with a view to possible changes.

We complain of the lack of initiative, of intelligent, fruitful thinking on the part of the rank and file of our students. May it not be that this lack, if indeed such lack exists, is attributable to something in our system which discourages and represses the very quality the absence of which we lament?

Briefly, the case is this: the student, from the outset, is aware that at the end of two years of work, he must within a few short hours, on a particular day, manage to put upon paper something that will satisfy an examiner, who, by the way, must usually be a person who has no knowledge whatever as to the identity of the examinee, and must gauge his man entirely by the paper that comes into his hands. The youth who has before his mind for two years this day of crisis, is provided with a list of books which are to be read. Is it to be wondered at that he chooses as the surest way to success, the task of mastering the contents of those books? He does not expect questions involving an opinion or a deduction of his own to be asked, and not unnaturally believes that his greatest hope lies in reproducing the ideas and even the forms of expression of his author. This is, I believe, a point of vital weakness in our system. The result is that we bar the way against the thing that is most essential in an education. Instead of guiding our youth by a path that trains and developes the power of thought, we practically insist upon turning them into machines, or echoes, and thus shut the door of the highest mental development against them. The marvel is that, in spite of all this, so many of India's youth have wrought so well and taken their places in the ranks of those who have contributed to the intellectual stores of their time. They were too great to be kept out of the race by any form of handicap. But what of the multitude who are less great or less fortunate?

Amongst those who are ready to admit that our system is not perfect in its working, and that there is some call for remedial treatment, we shall find those who are skeptical as to the possibility of applying any tests other than those which have been our reliance from the beginning. Some will instance the unquestionable fact that our examinations have been improved and advise us to rest satisfied with what we have. But, if there be any considerable truth in what has been suggested as to the stupefying effects of some of our methods, it is surely high time that more serious thought than has hitherto been devoted to it be given to the possibility of some radical reform.

(1) It is my belief that more responsibility should be delegated to the Colleges. The candidate for a Degree receives his training in a College. The College might reasonably be expected to assist the University in its task of determining whether or not the student has so mastered his subjects as to merit a degree. The working out of some plan in accordance with which the certified record of his College work would count largely in the determination of a man's success or failure in a particular test is a task which I venture to commend to the members of this University.

(2) Another direction, toward which it is imperative that we turn our attention, is that of making our training vastly more practical. This need does not exist in the case of the Physical Sciences only. Literature, Philosophy, History, Mathematics have to do with the lives of men, and their study should be pursued, not merely because it gives pleasure and promotes personal culture, but because all this knowledge bears a direct and vital relation to the best work that a man can hope to do amongst his fellow men. We are fairly overwhelmed with theories, principles and definitions, and yet how infinitesimal their influence upon our lives! Let the student be shown something of the practical bearings of what he is striving to learn, and his tasks will be a joy and a blessing to him. No boy ever learned to swim by studying the definition of swimming, and no definition will ever save his life in the water. But after he has learned to take care of himself in the water, it will doubtless stimulate his intelligence to study the theories and principles of swimming.

How can modern knowledge be utilized? This is an enquiry, a reply to which is not, I venture to believe, beneath the dignity of a University, and from whom should an answer more confidently be expected? The University stands for the whole good of man—his uplift. It exists to increase and diffuse knowledge, and this surely includes what is distinctively described as useful knowledge.

I have dreamed of the establishment here of a College of Commerce, as an integral part of our activities; of the foundation of Industrial Fellowships for the investigation of specific problems connected with Industry. India is entering upon a new stage in her history. Manufacture is as yet only in its beginning; but there can be no question as to its future development. Men will be needed to solve many of its as yet unsolved problems—problems connected with such substances as glass, sugar, paints, drugs, iron and oil. It is certainly possible for a University to forward the progress of such industry, without departing in the slightest degree, from her legitimate and primary functions, because, in the act of doing so, she will be lending herself to the increase of useful knowledge and, at the same time, will bring her Alumni into touch with the throbbing life of the masses of the people, where their influence is most deeply needed, and where they themselves will find scope for the fullest exercise of all the powers they may possess.

A friend recently said to me, The real problem of India is not that of finding employment for educated men, but rather the education of men who will find employment for themselves. Shall we not address ourselves to this problem by an honest attempt to eliminate from our methods everything that tends to produce the purely mechanical type of man, and substitute for it all that can be found to fit our students for the larger life of which many of them are capable?

Gentlemen of the Senate,—On this occasion, probably the last upon which it will be my privilege to address you, I cannot refrain from some expression of my appreciation of the pleasure and honour which I have enjoyed in being permitted, for six years, to preside over your deliberations and to take part in the administration of an institution which bears so close a relation to the welfare of the people of these Provinces and States of the great North-West. We have together attempted many things, and in most of them have achieved a reasonable degree of success. You have been uniformly forbearing and courteous and, though there have been honest differences of opinion amongst us, I cannot recall to-day a single instance of unpleasantness in our relations with each other. To you as a Senate, and as individuals, therefore, I venture to utter this word of altogether inadequate but wholly sincere appreciation.

Members of the Graduating Classes,—You are to be congratulated to-day upon the completion of a task undertaken by you in the very early years of your lives. To some of you the way has doubtless seemed long and hard, and, in not a few instances it has actually been lengthened by interruptions in progress due to differences of opinion that have been found to exist between examiners and yourselves. But to-day whatever of disappointment or discouragement you may have suffered, you can afford to forget as you set your faces toward the future.

Again, as last year, I make no apology for referring to the appalling world-conditions which so largely fill the thoughts of us all. During the past seventeen months, India has borne a noble part in her own defence and in the defence of privileges and principles enjoyed and professed by the Great Empire of which she forms a part. The conviction that success will ultimately crown the heroism, the resources and the patient endurance of the Allies, is irresistable. It is so, not only because they possess a mighty equipment of means and men, but because their hands are strengthened and their hearts cheered by the belief that they are contending for the things that are just and true and good, and have resolved to achieve them at whatever cost.

Young gentlemen, this gigantic struggle touches us all.

Your brothers, your friends, are upon the firing-line or in the camps where men minister to the wounded and dying. Others of them have already laid down their lives at the bidding of King and Country. More, and yet more of self-devotion, may be demanded. The students of our Universities may some day hear the call that has emptied lecture-halls in Europe. Should that call come, we may, I believe, count with confidence upon a splendid response Your spirit of loyalty to the King-Emperor and your adherence to those principles of righteousness which you have learned to value and to associate with the name of the British Empire seem to me to make this secure. "East is East and West is West," and the twain have, marching side by side, met upon the battlefields of the Empire,—a presage of that time when they shall in closer sympathy that ever in the past, unite to perpetuate and maintain, in fullest action the principles that lie at the basis of the Government under which we live. These days of carnage, this period when the struggle between men and men is more deadly than ever before in human history, must ere long come to an end. We are fain to believe that the days of reconstruction and re-adjustment between the nations are not far off. Honest, capable self-sacrificing men will then be in no less demand than they are now, when millions are fighting for their lives and for things which they account even dearer than life. Strong, wise, calm leaders of the people will be, and even now are, required; not from the official classes alone, by any means, but men dwelling amongst the people, rising to spheres of unsought leadership because of qualities which fit them to stand unmoved in adherence to the right, in the face of every gust of uncontrolled passion and in steadfast opposition to all that is wrong. You seek a sphere. Here it lies before you. It is unlikely that in it you will find either great fame or great wealth. But you will unquestionably find, if you possess the requisite courage and ability, that which is of vastly more value, the joy that springs from a conscience that approves and from sharing in the best things that human life affords.

You are and will be what you make yourselves. In the years to come, you will grow in the ratio of your wisely directed endeavours, and will shine by the light that is in you as tapers, stars or suns. By this law, the path of possible human progress is glorious beyond conception. Persistent self-culture, unflinching determination to discover and tread the path which will lead you most directly into the place where your days will count for the most in guiding, succouring and uplifting your fellow-men, —for the practice and exercise of these, no more peremptory call was ever heard by men than that which you may, if you will, hear to-day.

"God give us men. A time like this demands

Great hearts, strong minds, true faith and willing hands;

Men whom the lust of office does not kill;

Men whom the spoils of office cannot buy;

Men who possess opinions and a will;

Men who have honour, men who will not lie."

After the conclusion of the address, His Honour the Chancellor declared the Convocation closed. His Honour was then conducted by the Vice-Chancellor and Fellows to the main entrance and took his departure.

By order,

Registrar.

APPENDIX III.

FROM

MESSRS BASANT RAM & SONS,

Auditors of Accounts.

To

THE REGISTRAR,

University of the Panjab,

Lahore.

Dated Lahore, the 25*th November* 1915.

DEAR SIR,

WE beg to report that we have audited the accounts of the Panjab University for the months of July, August, September and October, 1915.

The following accounts were scrutinised :—

(1) The Current Account.

(2) The Oriental College Account.

(3) The Law College Account.

(4) The Special Endowment Trust's Account.

(5) The General Endowment Fund Account.

(6) The unendowed Special Subscription and Donation Account.

(7) The Provident Fund Account.

We have examined the Cash Books and the Ledgers of the various accounts and also the Bank Pass Books relating thereto. The balances at the end of each month have been verified with those shewn in the Bank Pass Books.

The following defects were noticed by us in the course of our audit :—

CURRENT ACCOUNT.

Receipts.

In a few instances there were differences in the amounts shewn in the counterfoils and the amounts taken into the Cash Book. On our pointing out, the former were corrected.

This is due to not comparing and completing accounts daily. The differences have been corrected and I have satisfied myself after comparing the Cash Book with the Memo. Book and the receipt books.

3. *Proceedings of the English Board, dated the 4th November* 1915—(*vide Appendix A*).—The Courses of Reading suggested for the various examinations were considered.

(*a*) *Matriculation Examination of* 1919.—Considerable discussion arose regarding the retention of *Lamb's Tales from Shakespeare* in the list of prescribed books, and after an expression of opinion, generally adverse, by the Director of Public Instruction, and Messrs. Langhorne, Manohar Lal, Tomlinson and Wathen, it was decided to refer this book back to the Board with a view to substituting another book, or to prescribing an edition of the Essays free from archaisms and obsolete grammatical forms.

The remainder of the recommendations of the Board were adopted.

(b) The Intermediate and B.A. courses were adopted as recommended, after some discussion regarding the Intermediate poetry course.

(c) The changes in the plan of the course for the M.A. Examination evoked considerable discussion, but eventually the recommendations were adopted with the following modifications :—

APPENDIX A.

Letter dated 8th April 1916.

From—Messrs. BASANT RAM & SONS, Auditors of Accounts, Lahore,

To—The Secretary, Punjab Public Library, Lahore.

DEAR SIR,

WE have checked the accounts of the Punjab Public Library for the year ending 31st March 1916 and have found them correct, subject to the following remarks :—

RECEIPTS.

We could not check the Receipt side of the Cash Book from 8th April 1915 to 22nd July 1915 as the counterfoil Receipt Book from No. 1 to 100 pertaining to the receipts of this period was not forthcoming. The same is said to have been mislaid.

We have seen that all the payments are properly supported by vouchers except the following :—

Date.	*Particulars.*	*Amount.* Rs. A. P.
(1) 1st October 1915 ...	Paid to Messrs. D. B. Taraporevala, Sons & Co., Bombay ...	16 2 0
(2) 14th October 1915 ...	Ditto Ditto ...	11 12 0

For No. 1 we have been shown a stamped receipt which does not bear the firms' signature and we have seen that the payment No. 2 has been made by cheque.

We have seen that the various items of expenditure have been sanctioned by the Library Committee. Under the following heads, there is increase over the Budget Sanction :—

Head.	*Budget Sanction.* Rs. A. P.	*Actual Expenses.* Rs. A. P.	*Exceeded by* Rs. A. P.
1. Office Establishment	3,588 0 0	3,600 8 9	12 8 9
2. Famine Allowance...	48 0 0	54 2 0	6 2 0
3. Subscription to Journals and Periodicals ...	370 0 0	707 12 4	337 12 4

We are told that the excess under head No. 3 is due to the fact that subscriptions for Periodicals from England for the year 1916 have also been paid during the year under report.

On the whole the total expenditure sanctioned by the Committee in the beginning of the year was Rs. 9,268-8-0, while the actual expenses during the period amount to Rs. 8,165-3-2, and so the total expenditure is within the sanctioned budget.

Under the Head of (Receipts) income was estimated at Rs. 8,387, while the actual income has been Rs. 12,946-5-10.

Lastly we beg to thank the Librarian for the help rendered to us in the course of the audit.

Yours faithfully,

BASANT RAM & SONS.,

Auditors.

APPENDIX E.

PUNJAB PUBLIC LIBRARY, LAHORE.

Note on the working of the Institution for the year ending 31*st March* 1916.

1. The Committee of the Lahore Gymkhana nominated Captain H. C. Sczezepanski to succeed Mr. Edwin Haward who had resigned. The Right Revd. the Lord Bishop of Lahore nominated the Canon G. S. Syme in succession to the Revd. Mr. H. T. Wheeler. The former resigned before the close of the year, being about to proceed on leave, and the Lord Bishop has been asked to nominate his successor. Mr. Manohar Lal, M.A., Bar.-at-Law, Lahore, and Mr. Kanwar Sain, M.A., Bar.-at-Law, Principal, Law College, Lahore, continued to represent the Life-members on the Committee during the year.

2. Thirty-five thousand and five-hundred and twenty-five volumes were read or referred to in the Library, and 9,059 taken out by subscribers and life-members. The total number of volumes read or referred to in and out of the Library was 44,584.

3. Similar figures for the past five years are as follows :—

Year.	Number of volumes read or referred to in the Library.	Number of volumes taken out of the Library.	Total Number of volumes read or referred to in or out of the Library.
1910	21,231	6,671	27,902
1911-12	27,719	10,576	38,295
1912-13	23,053	8,640	31,693
1913-14	22,133	7,740	29,873
1914-15	35,842	7,380	43,222

4. Seventy-six annual subscribers and four life-members joined the Library during the year under report and sixty did not renew their subscriptions. The total number of subscribers on the 31st March 1916 was 209 and that of life-members 181.

5. Similar figures relating to the quinquennium ending 31st March 1915 are as follows:—

Year.	Number of new subscribers.	Number of subscribers who did not renew their subscriptions.	Number of life-members joined.	Effective number of subscribers.	Effective number of life-members.
1910 ...	76	118	12	230	135
1911-12 ...	118	107	10	241	143
1912 13 ...	105	87	8	259	149
1913-14 ...	85	102	14	262	161
1914-15 ...	58	107	19	193	179

6. One thousand and two hundred and twenty three volumes were added to the Library. Of these 755 were presentation copies (including 568 reports and blue books) for which the thanks of the Committee are due to the Government of India, the Governments of the Punjab, and the North-West Frontier Province, the Financial Commissioners, Punjab, the Secretary, Public Works Department, Punjab, the Director-General of the Geological Survey of India, the Director-General of the Archæological Survey of India, the Director, Agricultural College, Pusa, the Deputy Commissioner, Kohat, the Commissioner, Lahore Division, Mr. R. C. Bolster, Mr. M. N. Dhala, the Principal, Government College, Lahore, and Syed Mumtaz Ali.

7. The arrangements made at the desire of the Punjab Government to keep in the premises of the Library and make available to the public for consultation specifications of patents and designs registered in India were renewed for another year. The specifications, which are available for consultation in a separate wing provided for the purpose, number 2,411.

8. The expenditure on the purchase of books and periodicals during the year amounted to Rs. 2,145-4-4 and Rs. 707-12-4 respectively. A sum of Rs. 277-4-0 was spent on book-binding. The Punjab Government was pleased to sanction a special grant of twenty thousand rupees for the purchase of books and to raise the monthly grant from Rs. 300 to Rs. 400 to enable the Committee to strengthen the administration of the Library. The special grant of twenty thousand rupees will be paid in five annual instalments of Rs. 4,000, beginning from the year 1915-16. The Committee appointed a special Sub-Committee to make suggestions for the utilization of these grants, and the proposals made by it have been considered and approved by the Committee.

9. The progress made in seeing the revised Catalogue through the Press may be noted briefly. Two hundred and sixty-four pages (covering four sections---Indian History, Philosophy, Religion and Philology), of the second volume of the revised edition of the Catalogue have been printed off. Sections "Literature", "Science," and "Useful Arts," are being seen through the Press. The Manuscript of Section "Law" is under preparation and will soon be ready for the Press. This, with an appendix containing lists of various series and a supplement containing books added to the Library since the publication of the first volume and the sections referred to above will complete the second volume. The work of revising the Catalogue and seeing it through the Press is being done by the staff along with the discharge of their normal duties, and that is the reason why its progress has not been as great as it might have been. It may also be mentioned in this connection that the Punjab University engaged the services of a qualified Library expert from America, who organised during the cold weather a series of lectures on matters pertaining to Classification and Library management generally; and these were open to all engaged in Library work in the Punjab. The Librarian of the Punjab Public Library joined this class. At the end of the course Mr. Asa Don Dickinson held an examination in the pass list of which our Librarian took a high place. The Punjab Public Library has thus a Librarian who with his experience of over 10 years in the working of the Punjab Public Library combines professional training under an expert. He has been elected a member of the American Library Association.

10. The year 1915-16 began with a balance of Rs. 2,765-10-4 and the Receipts during the year amounted to Rs. 12,946-5-10 including the first instalment of Rs. 4,000 on account of the special grant made by the Punjab Government. The total outlay under various heads of expenditure was Rs. 8,165-3-2 and the year closed with a balance of Rs. 7,546-13-0. The latter sum includes Rs. 1,415-0-11 deposited in the Post Office Savings Bank as security deposits of the annual subscribers. It also includes the special grant made by Government for the purchase of books during the past year but not yet spent, and also the balance of the enhanced monthly grant not spent during the year and ordered to be funded in order to form the nucleus of a Provident Fund for the staff.

11. The Committee held eight meetings during the year to transact current business.

Miscellaneous Notices and Advertisements.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-42, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

Chief Secretary to Government, Punjab.

Miscellaneous Notices and Advertisements.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-42, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

(2) *The specific gravity of light caoutchoucine.*—The specific gravity of light caoutchoucine at 60° F. should lie between ·835 and ·860 referred to water as 1·000.

(3) *Boiling test.*—For the purpose of this test, 100 c.c. of light caoutchoucine should be redistilled in the pyridine testing flask (see specification for pyridine bases). Under those conditions not more than 15 c.c. of distillate should pass over at or below 100 c. whilst a total (including the foregoing) of at least 70 c.c. should pass over at or below 200° C.

(4) *Absence of soluble constituents.*—When 25 c.c. of light caoutchoucine are shaken with an equal volume of water in a stoppered graduated cylinder and due time is allowed for the liquids to separate again into two layers the light caoutchoucine should show no appreciable diminution in volume.

(5) *Neutrality.*—The aqueous layer obtained from test (4) should show no marked acidity or alkalinity when tested with both red and blue litmus paper.

(6) *Limit of saturated hydrocarbons.*—At least 70 per cent. of the light caoutchoucine should be soluble in concentrated sulphuric acid. For testing this, 25 c. c. should be measured off into a tapped and stoppered separating-cylinder of suitable capacity and sulphuric acid hould be added, at first with great care and in very small quantities. After each addition of acid, the cylinder should be shaken and cooled to avoid loss of volatile constituents. Sufficient acid must be used (usually about 50 c.c.) for the high coloured layer to become quite fluid so that it can separate readily from the upper layer of unattacked constituents. After a final thorough shaking and cooling the cylinder should be left for about three hours to effect complete separation of the two layers and the lower layer be then tapped off. The almost colourless upper layer should be again shaken with strong sulphuric acid until it appears free from soluble constituents (as judged by the colour imparted to the sulphuric acid) and separated as before after standing. It should finally measure not more than 7 c.c.s. The acid used should be of specific gravity 1·84, and may be of commercial quality.

(7) *Freedom from water.*—Light caoutchoucine should not contain any appreciable amount of water. Any officer engaged in drawing samples for test should certify on the bottle that he has drawn the samples from the bottom of the containing vessel where the water, if

present, will be found. For this purpose he should employ a syphon tube of which the shorter limb reaches to the floor of the containing vessel. He should also assure himself that the sample in collected in a bottle free of moisture.

SPECIFICATION FOR MINERAL PYRIDINE BASES.

I. *Colour.*—The colour must not be darker than that given by two cubic centimetres of deci-normal iodine solution dissolved in one litre of distilled water.

II. *Miscibility with water.*—20 c.c. of the pyridine bases should give a clear mixture with 40 c. c. of water; or else a mixture only so slightly opalescent that, after standing for five minutes, ordinary newspaper type is clearly visible through a layer 15 c. m. deep.

III. *Amount of water present.*—From 20 c.c. of the pyridine bases mixed with 20 c. c. of caustic soda solution (density 1·4), at least 18·5 c.c. of the bases should separate, after having been repeatedly shaken together and allowed to stand.

IV. *Titration.*—Dissolve 1 c.c. of the pyridine bases in 10 c.c. of distilled water. Titrate with normal sulphuric acid until a drop of the mixture gives a definite blue spot on congo-red paper (the blue colour should at once disappear). At least 10 c.c. of the normal sulphuric acid should be required to produce this reaction. (To prepare the congo-red paper, dissolve one gram of congo-red in one litre of distilled water. Soak filter paper in this and then dry.)

V. *Cadmium Chloride Reaction.*—Vigorously shake together 10 c.c. of a solution of 1 c.c. of pyridine bases in 100 c.c. of distilled water with 5 c.c. of a 5 per cent. solution of dry fused Cadmium Chloride. A distinct crystalline precipitate should immediately result.

VI. *Boiling point.*—Distil 100 c.c. of the pyridine bases in the manner described below. At least 90 per cent. should distil over at or under 140 degrees C.

Method.—100 c. c. of pyridine bases are placed in a short necked copper flask of about 200 c.c. capacity. The flask is arranged on an asbestos card which has a circular hole of 30 m.m diameter cut in it. To the flask is attached a fractionating column (consisting of a tube 13 m. m. wide and 170 m.m. long, provided with one bulb) of which the side-tube (issuing 1 c. m. above the bulb) joins a Liebig's condenser of which the cooled part is at least 400 m.m. long.* A standard thermometer is placed is the head of the column so that its bulb occupies the centre of the bulb of the column.

The speed of distillation is adjusted to 5 c. c. per minute, the distillate being received in a graduated glass-cylinder. At least 90 c. c. should distil over at or under 140 C. at a barometric pressure of 760 m. m.

If the barometer varies from 760 m. m. a correction of 1° C. for each 30 m. m. of variation should be applied (*e.g.*, under 770 m. m. of pressure 90 c. c. of distillate should come over at or under 140·3° C., whilst under 750 m. m. the same amount of distillate should come over at 139·7 C.).

*FOOT NOTE.—The above pattern is that specified in the German Government's Regulations and has been suggested for adoption as being a simple form obtainable in every chemical laboratory. (Messrs. Baird and Tatlock, Limited, London, have been furnished with the details with a view to its supply). The more modern double-surface condensers may, of course, be substituted where available.

J. C. GODLEY,

Director of Public Instruction, Punjab.

Queen Ma y's College, Lahore.

THIS school has been founded in order to give girls of the higher ranks an education suitable to their position. The proposed education is to be first and foremost womanly, and pupils will not for the present be prepared for the matriculation examination of the University. The Indian ideals of self-sacrificing motherhood and simplicity of life will be held sacred, and the education given, while conducted on the best modern methods, will seek in every way to guard the ideal of the Indian wife in her home. For this reason the curriculum ncludes lessons on the care of children's health, simple remedies for ordinary illnesses, "first aid" invalid cookery, and science as applied to the home in the shape of the elementary laws of sanitation, ventilation, etc. Great stress is laid on needlework, and every kind of both Indian and English needlework, plain and artistic, including the use of the sewing machine, is taught by competent teachers.

Study of Vernaculars.—The intelligent study of the mother-tongue is the basis of education in every country, and great attention is paid to the vernaculars. Hindi, Urdu and Gurmukhi are taught by fully qualified teachers, and instruction is given in beautiful writing as well as in reading and composition.

When a pupil has acquired sufficient mastery over her own vernacular, she may proceed to the study of Persian or Sanskrit, Arabic, or French.

Religious Education.—Reference to the list of subscribers to Queen Mary's College will show that all sects are represented ; therefore distinctive sectarian teaching cannot be given. There is, however, much on which all religious-minded people agree. The virtues of modesty, self-sacrifice, obedience, gentleness and many others are honoured by all alike. Moral lessons are given daily on such virtues and duties, and these are illustrated by examples drawn from the literature of all nations and all times.

Age.—Parents are advised to send their children at about six years of age, in order that they may obtain full benefit from the courses of instruction.

Fees.—Entrance	... ...	Rs. 10 per month.
All classe below Middle	... ...	,, 5 ,,
Middle and High	... ...	,, 10 ,,

No reduction is made for sisters.

Fees must be paid in advance before the 15th of each month.

One month's notice is required for leave of absence or withdrawal ; otherwise full fees will be charged.

Fees will be remitted in all cases of prolonged illness upon receipt of a medical certificate given by a fully qualified doctor.

Twelve handkerchiefs are necessary. 4 pillow-cases.

Furniture.—Bedsteads and all necessary furniture will be provided.

Cooking.—Separate cook-houses are provided for Hindus, Sikhs and Mussalmanis. There is a Brahmani cook for the Hindus. Boarders should bring the table-utensils to which they are accustomed, or request the Principal to buy for them such things as are used by Europeans. Four meals are provided during the day. Milk is given twice daily. Extra milk or special diet will be separately charged for.

Recreation.—Physical exercise is taken at various times in the day in the large garden of the College. Tennis, badminton, croquet and other games are played. Those who are not in pardah go for occasional walks and drives.

Games' fee.—Re. 1 a term. Indian shoes or English tennis shoes must be worn on the grass.

Servants.—Sufficient women servants are provided. No private servants are necessary.

Illness.—Medical attendance will be charged for if necessary. All arrangement for care of pupils during sickness will be made by the Principal. There is a small hospital on the premises.

Leave of absence.—Leave of absence will not be given in term time except on very urgent business. Girls who attend weddings or other crowded functions will be isolated for several days on return owing to danger of infection. No reduction made for any absence Leave on Sundays for the day begins at 11 A.M.

Preparatory School for the sons of Chiefs and Raises.

THIS School is situated opposite Queen Mary College, Lahore.

The teachers, English and Indian, are supplied from the Staff of Queen Mary College under the supervision of the Principal. An English Lady is resident, and there is also an experienced Indian matron.

The School aims at laying the foundation of a good moral character in the boys, when young, and giving them the first stage of a good modern education including daily practice in talking English.

Miscellaneous Notices and Advertisements.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-42, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

Miscellaneous Notices and Advertisements.

THE following is republished for general information :—

***Extract from the Proceedings of the Government of India in the Home Department (Public), No.* 2831-42, *dated 8th December* 1899.**

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

Miscellaneous Notices and Advertisements.

THE following is republished for general information :—

***Extract from the Proceedings of the Government of India in the Home Department (Public), No.* 2831-42, *dated 8th December* 1899.**

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has dec'ded that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

J. P. THOMPSON,

Offg. Chief Secretary to Government, Punjab.

Notice.

Queen Mary's College, Lahore.

This school has been founded in order to give girls of the higher ranks an education suitable to their position. The proposed education is to be first and foremost womanly, and pupils will not for the present be prepared for the matriculation examination of the University. The Indian ideals of self-sacrificing motherhood and simplicity of life will be held sacred, and the education given, while conducted on the best modern methods, will seek in every way to guard the ideal of the Indian wife in her home. For this reason the curriculum includes lessons on the care of children's health, simple remedies for ordinary illnesses, "first aid" invalid cookery, and science as applied to the home in the shape of the elementary laws of sanitation, ventilation, etc. Great stress is laid on needlework, and every kind of both Indian and English needlework, plain and artistic, including the use of the sewing machine, is taught by competent teachers.

Study of Vernaculars.—The intelligent study of the mother-tongue is the basis of education in every country, and great attention is paid to the vernaculars. Hindi, Urdu and Gurmukhi are taught by fully qualified teachers, and instruction is given in beautiful writing as well as in reading and composition.

When a pupil has acquired sufficient mastery over her own vernacular, she may proceed to the study of Persian or Sanskrit, Arabic, or French.

Religious Education.—Reference to the list of subscribers to Queen Mary's College will show that all sects are represented; therefore distinctive sectarian teaching cannot be given. There is, however, much on which all religious-minded people agree. The virtues of modesty, self-sacrifice, obedience, gentleness and many others are honoured by all alike. Moral lessons are given daily on such virtues and duties, and these are illustrated by examples drawn from the literature of all nations and all times.

Age.—Parents are advised to send their children at about six years of age, in order that they may obtain full benefit from the courses of instruction.

Fees.—Entrance	...	...	Rs. 10 per month.

Miscellaneous Notices and Advertisements.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-42, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

J. P. THOMPSON,

Offg. Chief Secretary to Government, Punjab.

Miscellaneous Notices and Advertisements.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-42, *dated 8th December* 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

J. P. THOMPSON,

Offg. Chief Secretary to Government, Punjab.

Notice.

Notifications by Chief Court, Financial Commissioners, Accountant-General, &c.

CHIEF COURT OF THE PUNJAB.

NOTIFICATIONS.

The 5th November 1915.

No. 6281-*A. G.—Powers.*—In exercise of the powers conferred by section 26 of the Punjab Courts Act, 1914, Bhai Gyan Singh, Munsif of the 2nd class in the district of Multán, is appointed a Munsif of the 1st class for the purpose of exercising jurisdiction (in accordance with notification No. 4239-G., dated the 14th July 1914), so long as he shall remain attached to the Multán District.

The 4th May 1916.

No. 2481-*G.—Notification.*—The following rules made by the Chief Court under powers conferred by section 15 (1) (*f*) (*g*) and (*j*) of the Punjab Courts Act, 1914, have received the sanction of the Local Government and are published for information :—

RULES FOR THE SHERIFFS' PETTY ACCOUNTS.

PART I.

Constitution and management.

1. The Sheriffs' Petty Accounts are made up of the numerous petty sums received by Civil, Revenue and Criminal Courts from parties to suits or other judicial proceedings for immediate disbursement in full (as for diet-money of witnesses, commission fees, &c.).

538 PGG

2. The following are examples of items which should be dealt with under "Sheriffs' Petty Accounts":—

(a) Sums deposited by parties as the expenses of witnesses in Civil, Criminal and Revenue cases.

(b) All sums received for immediate disbursement as costs in partition cases (revenue).

(c) Sums deposited as costs in connection with applications for succession certificates other than the cost of stamps deposited by applicants under Act VII of 1889.

(d) Similar petty items received for immediate disbursement in full.

3. The accounts of these deposits should be kept in the following registers, the forms of which are annexed :—

Register A.—Showing Income from petty Deposits.

Register B.—Showing Repayments of petty Deposits.

Register C.—Showing abstracts of Receipts and Payments and the balance in the hand of the process-serving agent at the end of each day.

Register D.—Register of Processes received and disposed of by the agent (revised form for present Register No. 23).

Register E.—Cash Account of the Permanent Advance held by the agent.

Register F.—Ledger Account with other agents.

Form G.—Receipt Book.

Form H.—Note Book of Process-servers.

Form I.—Court's Payment Order.

Form J.—Memo. to accompany Remittances of surplus to the Treasury.

Form K.—Memo. to accompany Remittances of monthly balance to the Treasury.

Form L.—Consolidated Memo. of Remittances to the Treasury.

Form M.—Stock Book of Forms.

4. No change or modification should be made in the form of these registers without the previous sanction of the Chief Court.

5. The District Judge is responsible for the prompt and efficient service of all processes issued by the Civil, Revenue and Criminal Courts of his district; where control of the process-serving establishment has been delegated to a Subordinate Judge under section 37 of the Punjab Courts Act, the responsibility devolves upon such Subordinate Judge.

6. The District Nazir is head of the process-serving establishment. It is his duty to submit reports relating to the members of the establishment or their duties to the District or Subordinate Judge; to arrange for the distribution of business among process-servers and the transmission of processes to agencies located at tahsils; to keep up the prescribed accounts; and to undertake correspondence regarding the payment of diet-money of witnesses and other similar matters.

7. The processes issued by courts are served by the following agencies :—

(i) Process-serving agent at the head-quarters of the district.

(ii) Process-serving agent at the head-quarters of a tahsil in the district.

(iii) The agency in other districts.

8. The agency at the head-quarters of the district is directly managed by the District Nazir with the assistance of the Civil Nazir under the supervision and control of the District or Subordinate Judge and of such other judicial officer as the District Judge may appoint for the purpose. The judicial officer so appointed will be known as the officer in charge of the Nazarat or head-quarters agency. The agency at each outlying tahsil is managed by a Naib Nazir or Madad Naib Nazir appointed for the purpose under the immediate supervision of the Munsif, Special Munsif, or Tahsildar where there is no Munsif, and subject to the general control of the District Judge. Such Munsif or Tahsildar shall be known as officer in charge of the Tahsil agency.

9. When an application involving a deposit in the Sheriff's Petty Accounts is presented in court, as for example, an application for the summoning of witnesses to whom diet-money is to be paid, the Court Reader shall note thereon the number of the case, in order to enable the process-serving agent to make the necessary entry in Register A. After the usual orders have been passed and recorded by the court, the applicant shall tender the amount of his deposit together with the application to the local agent who will fill in columns 1—7 of Register A, and prepare a receipt in foil and counter-foil in Form G and issue the foil to the depositor as a receipt for the money deposited.

Procedure on deposit.

NOTE.—If the application is for the summoning as a witness of a Government servant, it shall state his full official designation and this shall be copied into Register A

10. At the end of the day the officer in charge of the agency shall compare the entries made in Register A with the applications and the counter-foils of receipts issued, and after satisfying himself of their correctness should set his initials against each entry in column 8 of Register A.

11. After the serial No. of Register A has been noted on the application by the agent, it should be returned to the court concerned for record. The counterfoil receipts will be retained by the agent and produced for audit.

12. When the court of a Munsif or Tahsildar is situated at such a distance from the District or Subordinate Judge's Court as to render the frequent transmission of applications to the local agent inconvenient, the District or Subordinate Judge may direct that both applications and money should be received by an official of the Munsif's Court and a receipt in Form G granted to the Depositor by such official. At the end of the day, all such applications, together with the money and counter-foils of Form G, should be sent to the process-serving agent, who will enter the necessary particulars of each application in his Register A and return the applications and the book of counter-foils in Form G to the court concerned with the number, in Register A, of each item noted both on the application and in column 2 of the counter-foil concerned.

NOTE.—Column 2 of the foil will be left blank in such cases.

13. All processes issued by courts for service within the district should be sent to the local agent, and should contain a reference to the amount deposited with the agent.

14. Processes issued by a court for service in another district will be made over to the local agent by the issuing court for entry in Register D and transmission to the District Judge of the district in which the person to be served, resides. The amount deposited with the local agent on account of subsistence and other expenses as noted on the original and duplicate copy of the process will be transmitted by the agent by postal money order to the District Judge of the district in which service is to be effected, the cost of the postal order being borne by the party at whose instance the process is issued. The District Judge of such other district shall, in the event of the process not being served, return the amount by postal money order less cost of commission on such order.

Service through agency in other districts.

15. Courts issuing processes to other districts should take measures to call for the prompt return of the money remitted on account of processes which have not been served, and such sums after being accounted for in the accounts of the local agent in the usual way, should be returned to the person taking out the process, and excluded from the account of the costs of the suit.

NOTE.—Processes received for service from other districts are shown in a register called "Tamil Zillah Ghair," and need not be shown in Register D. Columns 11 and 12 of Register D kept by the forwarding local agent will also remain blank in such cases.

16. Processes issued by a court sitting at the head-quarters of the district or of a tahsil, for service on a person residing within the tahsil, where such court is situated, will be made over to the local agent in charge of the process-serving agency. The local agent will thereupon arrange as follows for payment at the time of service of sums due to persons to whom the processes are addressed.

Service through local agency.

17. Such sums will be given to the process-servers together with the processes, but before this is done the following procedure must be carried out :—

(a) Each process should be entered in Register D.

(b) Payment to process-server should be entered in the appropriate column of Register A against each sum.

(c) Payment entries should be made in Register B and the process-server's acknowledgment of receipt in column 11.

(d) Details of each sum should be entered in the process-server's note book (Form H).

18. When a process-server pays the diet-money to a witness he shall take the receipt of the actual payee in column 9 of his note-book (Form H) as well as on the back of the original copy of the process on which service is endorsed. The payee's acknowledgment should be verified by one or more respectable witnesses, the date and signature of the serving officer being added.

19. The processes whether served or not will be returned to the local agent. If the service is effected and the money connected therewith paid to the payee, the local agent shall verify the service with the acknowledgment of the payee given in column 9 of the process-server's note-book as well as on the back of the original copy of the process, and submit the latter to the Court concerned with the usual certificate of service, at the same time filling up columns 11 and 12 of Register D.

20. In the case of non-service, the undisbursed amount returned by the process-server shall again be entered against a new number in Register A. The new number of Register A should be quoted against the original entry in Register B and noted in column 11 of the process server's note-book, column 12 of which should also be signed by the agent in acknowledgment of the money having been received back from the process-server. The process will then be returned to the court concerned with a certificate of non-service after filling up columns 11 and 12 of Register D.

Service through other agencies in the same district.

21. Processes issued by a Court situated within the limits of one tahsil (whether it be the head-quarters tahsil or an outlying one) for service on a person residing within the limits of another tahsil in the district will be made over to the agent at the place where the court issuing the process sites, and such agent will transmit the process (duly endorsed with the amount, if any, which is to accompany the process) by post or (where absolutely necessary) by messenger, to the agent of the tahsil within which service is to be effected after making the necessary entries in columns 1—10 of Register D.

22. Processes received by one agency from another in the same district will invariably be returned direct to the agent from whom they were received, and he will return them to the court concerned.

23. When the amount to accompany a process or processes transmitted under Rule 21 to any one agency exceeds Rs. 5 a day, the usual entries will be made in Registers A and B, and the amount will be sent by money order to the agent concerned along with the processes, the money order commission being charged to judicial contingencies. The agent receiving the amount shall enter it in his Register A and, after carrying out the procedure detailed in Rule 17 (b), (c) and (d), shall cause the processes to be served and the amount disbursed to the payees in the same manner as if the processes had been issued by one of the courts of his own agency.

NOTE.—Processes received from other tahsils need not be entered in Register D kept by the agent.

24. In case of non-service the amount will be returned by postal money order (the money order commission being met out of judicial contingencies) to the agent from whom it was received, who should enter it against a new number in Register A. The new number of Register A should be quoted against the original entry in Register B.

25. The processes whether served or not should be submitted to the Court concerned with a certificate of service, or non-service as the case may be, after filling up columns 11 and 12 of Register D.

26. When the amount to accompany a process or processes transmitted under Rule 21 to any one agency does not exceed Rs. 5 a day, no remittance by money order need be made. In such cases the following procedure should be observed.

27. Each local agent will maintain a permanent advance account in Form E, a ledger account in Form F with each other agent in the district, and a postal money order commission account.

28. The agent issuing the process will enter it in Register D in the usual way and send it to the agent who is to serve it.

The latter will pay the amount due out of his permanent advance (*vide* Rule 32 *infra*) to the process-server deputed to effect the service, and will at same time enter the amount with the necessary particulars, *viz.*, (*i*) the number of the case, (*ii*) the name of the person on whom the process is to be served, and (*iii*) the name of the process-server to whom the process has been made over for service, on the credit side of his permanent advance account and on the debit side of his ledger account with the agent from whom the process has been received.

29. If service cannot be effected, the amount returned by the process-server will be shown on the credit side of the ledger account and on the debit side of the permanent advance account and the permanent advance at the same time recouped by the amount.

30. If service is effected, the agent who originally issued the process should, on receipt back of the same, enter the amount with the necessary particulars on the credit side of his ledger account with the agent returning the process.

31. The agent to whom a process is sent for service will invariably return tha same, with a certificate of service or non-service as the case may be, duly endorsed thereon, to the agent from whom he received the process, and the latter will thereupon fill up columns 11 and 12 of Register D and forward the process to the Court concerned.

32. Each process-serving agent is provided with a permanent advance of Rs. 50, which in certain cases may be increased (*vid* Punjab Government No. 441, dated 14th April 1891) in order to meet payments under these rules Such advance should be adjusted weekly by postal money order, the money order commission being met out of judicial contingencies. In special cases the District or Subordinate Judge may authorise adjustments to be made oftener than once a week if transactions are very numerous, or fortnightly if transactions do not exceed Rs. 5 or Rs. 10 in a fortnight.

33. When adjustments are to be made, each item of receipt entered on the credit side of the ledger account should be recovered from the general receipts and paid into the permanent advance, the necessary entries being made in Register B, the repayment columns of Register A and on the debit side of the permanent advance account.

34. Both sides of the ledger account with each agency should then be totalled and a balance struck. If the credits exceed the debits the balance should be remitted to the agency concerned by money order out of the permanent advance, the amount so remitted being entered on the credit side of the permanent advance account. If the debits exceed the credits the balance when received from the agency concerned should be shown on the debit side of the permanent advance account, the permanent advance at the same time being recouped by the amount.

35. The permanent advance of Rs. 50 should always be in the agent's hands in cash less the amount paid on account of processes under these rules.

The permanent advance account will be examined monthly or oftener by the District or Subordinate Judge at head-quarters and the Munsif or Special Munsif at outlying tahsils, the balances will be counted and verified, and the date of verification and the signature of the examining officer will be entered therein.

Refund of undisbursed deposits.

36. Any undisbursed balance of a deposit will be paid to the depositor when a refund of the same is claimed by him. In such cases and in all other cases in which undisbursed money has been ordered by the Court to be paid to the proper person, the Court shall issue a payment order (Form I) to the local agent who after taking the payee's acknowledgment in the space provided for the purpose in Form I and making the necessary entries in Registers A and B will pay the amount due. The number to be quoted on the top of Form I will be the serial number of the transaction in Register B.

37. Form I (the Court's "payment order") will remain in force for a period of one month. No payment can be made on lapsed order unless it is renewed in the following manner :—

On the production of a lapsed payment order the authority which originally granted it may, if satisfied that the person producing it is entitled to receive payment, revalidate the order by the following endorsement :—

Renewed ____________

Signed ____________

Dated ____________

The fact and date of renewal should be noted on the original departmental record of the Court. These payment orders will be kept in a guard file for audit purposes.

Registers A, B and C.

38. All entries of receipt in Register A and of payment in Register B and in the payment columns of Register A should be duly attested by the officer in charge of the agency on the day of transaction before the office is closed for business.

39. The daily tatals of receipts in Register A and of payments in Register B wil be carried to Register C and a balance struck therein under the signature of the officer in charge.

40. Progressive totals of daily receipts and daily payments should be made and noted in Registers A and B repectively, beneath the daily totals and continued till the surplus money is remitted into the treasury or till the gross receipts and payments are reported to that office for incorporation in the treasury accounts.

41. Payee's receipts received through the Post Office for amounts sent by money orders under paragraphs 14, 23 and 34 of these rules or under the special orders of the Court should always be pasted against the original entry in Register B. Similarly the coupons of money orders received from other places should be pasted against the entries of the amounts of such orders in Register A.

42. District and Sessions Judges and District Magistrates when inspecting Subordinate Courts should invariably inspect the process-serving officer's accounts and note the fact that this has been done in their inspection reports.

Remittances to the treasury.

43. Each of the process-serving agents shall on the fixed "latest date" of each month close his registers for the month, and enter subsequent transactions under the next month, and shall thereupon submit to the Treasury Officer or Sub-Treasury Officer a memorandum in Form K showing the gross receipts and payments made duriug the month and the balance; and shall, at the same time, remit the whole cash balance in hand to the treasury with a view to its being included in the cash balance of the district If it be found that at the commencement of the next month there are not sufficient receipts to meet demands for payment during the first few days, the demands may be met temporarily by drawing on the permanent advance at the disposal of the process-serving agent, recoupment being made whenever the receipts permit. If at any time the receipts in hand together with the permanent advance are insufficient to meet the demands for payment, the surplus remitted to the treasury may be drawn upon the necessary voucher being prepared for encashment of the treasury and the amount so drawn shown in Register A.

44. Whenever the sum in the hands of the agent at the head-quarters of a district is in excess of Rs. 200 or in the hands of a tahsil agent of Rs. 100, a remittance of the surplus shall at once be made to the Government Treasury or Sub-Treasury accompanied by a chalan in Form J which will be returned to the agent, duly receipted by the Treasury Officer or Tahsildar as the case may be. It is not, however, necessary to make such remittances until the excess over Rs. 200 or Rs. 100 amounts to Rs. 50, or Rs. 30, respectively. Remittances of a few rupees should be avoided.

45. (a) In addition to the monthly memorandum in Form K sent direct to the Treasury or Sub-Treasury by outlying Courts, all outlying Courts should forward monthly to the District or Subordinate Judge a memo. in Form L.

(b) The gross receipts and payments and the surplus collections remitted to the treasury as reported in the various memoranda in Form L received from outlying Courts shall be entered in the District or Subordinate Judge's own registers in the manner below :—

Add on account of accounts received from—

	Rs.
Tahsil	
Do.	
Do.	
Court	
Do.	

A consolidated memoranda shall then be prepared in the District or Subordinate Judge's Court in Form L mentioned above, embodying the transactions of the whole district, and shall be forwarded to the Treasury Officer for submission to the Accountant-General with the monthly accounts.

(*c*) District Judges should in the course of their inspection of Subordinate Courts satisfy themselves that these rules are complied with and the accounts properly maintained.

Treasury procedure.

46. (*a*) The Treasury accounts shall be kept in the form prescribed for Personal Ledger Deposits (Form 42, Civil Account Code). On each occasion that a remittance is made to the treasury, the gross receipts and gross payments noted in the memorandum accompanying the chalan shall be entered in the receipt and payment columns, respectively, of the register. In the balance column progressive balances shall be recorded separately for each month, that is to say, the excess of gross receipts over gross payments shall be added to the previous balance (if any) of the same month.

In the case of the intermediate remittances described in paragraph 44 above, however, the amount actually credited into the treasury should be added to the previous balance to arrive at the progressive balance to be shown in column 5 of Form 42, while the amount remaining with the Nazir should be noted in the remarks column.

In addition to being entered in the Ledger Account, the gross receipts and gross payments shall be carried to the receipt and payment side of the cash book against the head Sheriffs' Petty Account.

(*b*) As, however, in the case of the intermediate remittances described in paragraph 44 above the whole of the surplus of receipts over payments is not credited into the treasury, but part remains with the Nazir, it is clear that to enter gross receipts and gross payments in the cash book will result in there being a difference between the balances as shown in the Treasurer's and Accountant's balance sheets. To reconcile the discrepancy, the amount remaining in Nazir's hands should be shown separately—

(*i*) in the remarks column of the ledger account, and

(*ii*) in the Accountant's daily balance sheet,

the entry in the last being on the same principle as the entry of a sub-treasury balance.

The treasury shall continue to show these balances in the balance sheet until the entry is cancelled by a corresponding credit at the treasury.

(*c*) In the case of payments made from the treasury from the balance of a previous month or the current month, net payments only will appear in the ledger. In the case of payments from the balance of the current month the progressive balance of the month will be diminished by the amount of the payment, but in the case of payment against the balance of a previous month the balance of the current month will remain undisturbed. When a payment of this nature is made, the fact should, however, be noted both against the entry of payment and against the credit entry of the month from the balance of which payment is made, that balance being at the same time reduced by the amount paid. Any withdrawal of this nature from the treasury should be supported by a voucher in the form prescribed for payments of revenue deposits which will be exempt from stamp duty. These vouchers should be entered on a separate page of the list of repayments, in the first column of which the original month of receipt should be shown and the other columns filled in as in the case of ordinary revenue deposits, except column 2 which will remain blank.

Consolidation by the treasury of Sheriff's Petty Accounts and the monthly revenue deposit accounts.

47. (*a*) At the close of each month the total receipts and payments of the month as shown in columns 3 and 4 of the register in Form 42, Civil Account Code, shall be entered, respectively, at the foot of the Revenue Deposit receipt and payment registers, in each case, as a single item to be described as "Sheriff's Petty Account" without a number being given to the item or any other particulars being recorded. Similar entries shall be made in the extract registers of receipts and payments of deposits prepared for submission to the Accountant-General.

(*b*) As an exception to the foregoing, however, a brief analysis should be given on the extract register of payments of revenue deposits of the total amount repaid, showing

the amounts the balances of which have been drawn on, and the amount paid from the balance of each of these months, *e.g.*—

				Rs.
Total payments on account of Sheriff's Petty Accounts			...	980
Paid from receipts of the month of account		...	...	700
From the balance of April 1911	...	...	...	40
Do. do. August 1911	...	...	...	200
Do. do. January 1912	...	...	...	20
Do. do. February 1913	...	...	...	20

(*c*) The vouchers described in the concluding portion of paragraph 46 (*c*) above, *i.e.*, vouchers on account of withdrawals from the treasury balance of the Sheriff's Petty Accounts should be submitted to the Accountant-General with the vouchers relating to repayments of revenue deposits. They should, however, be entered on a separate page of the schedule in Form A. F. No. 26, Civil Account Code, Article 30.

(*d*) The treasury will submit to the Accountant-General with the monthly account the consolidated memorandum in Form L mentioned in paragraph 45 above.

Lapsed deposit.

48. Deposits not exceeding one rupee (Re. 1) unclaimed for one whole account year, balances not exceeding one rupee (Re. 1) of deposits partly repaid during the last year, and all balances unclaimed for more than three complete account years lapse to Government at the close of March in each year.

49. Each of the process-serving agents shall prepare a statement of such items in March of each year, and after approval of the District or Subordinate Judge strike off the items from Register A by entering them in the column provided for the purpose, the date on which they lapsed being noted in the column of remarks. The total amount of these lapsed statements should be communicated to the Treasury Officer with the necessary particulars of surplus amounts remitted to the treasury from time to time, and the Treasury Officer will show the total amount of lapses in lump sum in the statement of lapsing revenue deposits submitted by that officer to the Accountant-General. The lapsed statements prepared by the agents and approved by the District Judge should be kept for audit on the spot.

50. Items so lapsed if claimed should only be paid by the Treasury Officer after the necessary sanction of the Accountant-General, Punjab has been obtained on Form 32 B of the Civil Account Code.

Subsistence allowance to Government servants.

51. Diet money, *i.e.*, subsistence allowance deposited for payment to Government servants appearing as witnesses in Civil cases in which Government is not a party, should be credited into the treasury by Courts concerned and should not be paid to the witnesses.

Commission fees to Government servants.

52. (*a*) The acceptance of commission fees by Government servants is governed by articles 71 to 74 of the Civil Service Regulations.

(*b*) The Chief Court, with the approval of the Local Government, have ruled that no fee for a commission issued by a Court subordinate to that of the District Judge shall be allowed to a revenue official below the rank of Tahsildar, without the approval of the Deputy Commissioner.

(*c*) When Government servants other than those mentioned above are appointed as Commissioners in Civil cases and are paid special fees for executing commission, the Chief Court has ruled that the principle contained in the Government of India Resolution No. 11—1173-1190, dated the 8th September 1896, should be complied with, and that unless a Government servant is required to use privately acquired skill or knowledge, which has no

connection with his official work, he should not be allowed to retain a fee for executing a commission. Accordingly, in cases where an official acts in the exercise of his official functions, for example in executing a commission addressed by one civil court to another to examine a witness, the fees realised from the applicant for a commission should be credited to Government.

PART II.—GENERAL.

Audit.

53. The Sheriff's Petty Accounts and the accounts of the property made over to the Nazir for custody shall be audited, as far as possible, once a year under the orders of the Accountant-General by the Examiner, Local Fund Accounts, and a staff of peripatetic auditors.

54. Deputy Commissioners and District Judges should cause to be placed at the disposal of the auditors all account registers, documents, &c., as well as any subsidiary papers which may be required by the audit officers.

55. The results of the audit will be communicated in printed audit and inspection notes to Deputy Commissioners, District Judges, Commissioners, and to the Chief Court.

56. The Deputy Commissioners and District Judges should deal promptly with these audit and inspection notes. Miscellaneous Notices and Advertisements.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-42, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.

Miscellaneous Notices and Advertisements.

THE following is republished for general information :—

Extract from the Proceedings of the Government of India in the Home Department (Public), No. 2831-42, dated 8th December 1899.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country and by students who owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, signed by the head of the district in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer.
